

SNC-AP

Accounting Standardization System for Public Administration

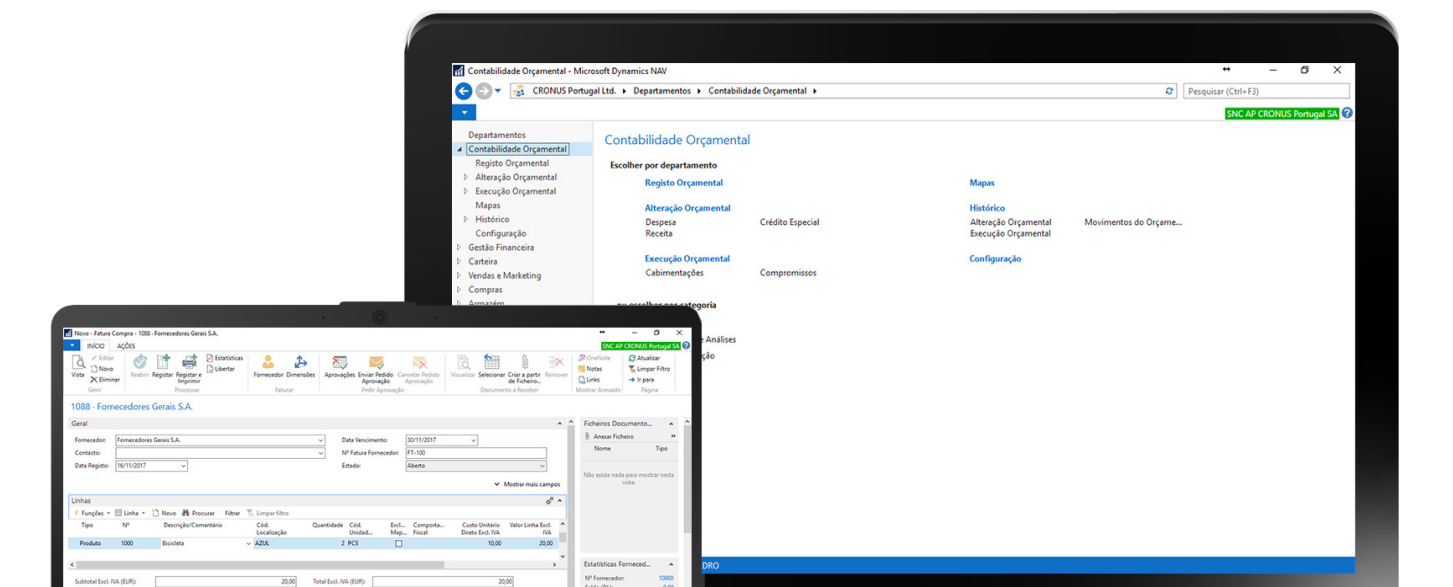

The **Hydra SNC-AP** add-on is a financial management solution specially developed to support the implementation of the new practices of the Accounting Standardization System for the bodies that are part of the Public Administration (SNC-AP). This standardization came into effect on 01/2018, in accordance with Decree-Law No. 192/2015.

The solution consolidates all levels of Public Administration, through the Budgetary Framework Law (LEO), promoting transparency and comparability of financial statements, as well as the efficiency and effectiveness of public management, enabling an approximation to other accounting systems in the European Union.

The Hydra SNC-AP add-on supports Portuguese Public Administration entities in the effective implementation of the SNC-AP, guaranteeing an adequate management that ensures a global financial control fully integrated with the ERP management modules.

Main Features

- Calculation of available funds (according to LCPA)
- Budget execution control and reporting to external entities
- Official accountability reports (maps and economic-financial analysis)
- Control of the legal limits of the Public Contracts code
- Treatment of positions in public functions

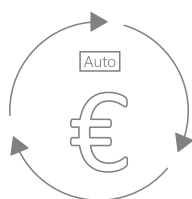

A solution dedicated to Public Administration entities to comply with the requirements of the new Accounting Standardization system

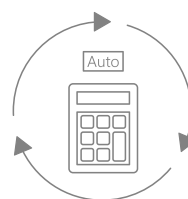

Intuitive and Easy to Use

Complete Budget Management Cycle

Automatic Accounting

Automatic Accountability
